REPLACEMENT/MAKE READY
INSTALLATION FORM

REPLACEMENT/MAKE READY INSTALLATION FORM

Instructions:

This form must be completed by applicants installing new electric vehicle (EV) chargers on existing infrastructure, including the replacement of existing EV chargers, when new permits or inspections from the local Authority Having Jurisdiction (AHJ) are not required. **This form should be uploaded to the Incentive Processing Center (IPC) in the place of the Final Site Plan, Issued Building Permit, and Final Inspection Card.**

Project Site:

Please fill out the table below pertaining to your Project Site:

Application Number (required):		
Street Address (required):		
Parcel # / Lat/long Coordinates (optional):		
City (required):	State (required):	Zip Code (required):

REQUIRED: The address must match the installation site address listed on your application and the installation site address on the Site Verification Form.

REPLACEMENT/MAKE READY INSTALLATION FORM

Project Type:

Please select one or both of the following scenarios and fill out the table below as applicable:

- I am replacing existing EV chargers (fill out both columns below)
- I am installing new EV chargers (fill out only the New EV Chargers column below)

Item	Existing EV Chargers	New EV Chargers
Total Number of EV charger(s)		
Total Number of connector(s) (Level 2 EVSE only)		
Brand/manufacturer(s)		
Model(s) and Port Count (single or dual port)		
Power Output Rating of each (kW)		
Date installed		

By signing below, you attest under the penalty of perjury under the laws of the State of California that the above is true and correct and (i) have confirmed with the relevant AHJ that the stations noted above will be/were installed on existing electrical infrastructure and (ii) do/did not require new permitting, design work or inspections to comply with all applicable codes or other requirements.
