General

This document was prepared as a result of work funded through the California Energy Commission. It does not necessarily represent the view of the Energy Commission, its employees, or the State of California.

Communities in Charge Staff and the California Energy Commission do not endorse or express preferential interest in the providers listed below. The following providers have agreed to meet requirements needed for the Communities in Charge project. If you are a network provider and are interested in being featured on this list, please [contact](#) the Communities in Charge Project Team.
