General

This document was prepared as a result of work funded through the California Energy Commission. It does not necessarily represent the view of the Energy Commission, its employees, or the State of California.

Communities in Charge Staff and the California Energy Commission do not endorse or express preferential interest in the equipment listed below. The following chargers meet requirements needed for the Communities in Charge project. If you are interested in having your EVSE featured on this list please visit the Technology Eligibility Section.

Eligible Equipment

- ## Autel US Inc.
  - ### Autel – MaxiCharger Single Charger (Digital Display Version)
    - 1 connector
    - 12 kW
    - Certified for public use
      - Autel | MaxiCharger Single Charger (Digital Display Version)
  - ### Autel – MaxiCharger Single Charger (LCD Version)
    - 1 connector
    - 12 kW
    - Certified for public use
      - Autel | MaxiCharger Single Charger (LCD Version)
  - ### Autel MaxiCharger AC Pro
    - 1 connector
    - 19.2 kW
    - Certified for public use
